👤 PROFILE

Self-taught backend developer with **7 years of experience** (since I was 12), specialized in creating robust and performant systems.

I work mainly with **Golang** and **Node.js**, and I have designed numerous personal projects.

Currently in **BUT Computer Science 2nd year** in Lens, I combine academic training and practical experience.

My Added Value

Early Experience: **7 years of practice** since adolescence

Technical Watch: Rapid adaptation to new technologies

Self-taught: since I was 12, I never stop learning about IT subjects

My Development Philosophy

Simplicity is the ultimate sophistication
